

WELCOME TO DOCKING MEADOWS

The field was gifted to Docking Parish in 1921 for the purpose of recreation by JHM (Montague) Hare. For many years it was used by the local school for sports and games and by village children and young people for a wide range of activities, including cricket and football matches.

Following its establishment as a playing field, parts of the land were later used by the Bowls Club and were also privately let for grazing.

As recorded by H. Elms and E. Wells in Docking: A Walk in Time (2000), the site has continued to evolve. In more recent years, Docking Parish Council, with funding from the County Council and the Woodland Trust, has transformed the area into a shared community space for everyone to enjoy – including dog walkers – while also creating habitats that support wildlife and enhance biodiversity within the village.

What you'll see...

Wild life takes responsibility

- ✓ take your litter home.
- ✓ keep your dog on lead
- ✓ pick up after your dog.
- ✓ open from dawn till dusk
